

## TriStar Memories

Using previously unseen material and footage from a variety of Avion DVDs, we take you back to the heyday of this attractive, exciting airliner, that was advanced for its time.

An informative narrative ties together some of the main elements of the TriStar story, whilst never getting in the way of the action you want to hear as well as see.

From displays at Farnborough by early examples, to the final refuelling sortie by two RAF aircraft, this DVD is TriStar all the way through.

British Airways TriStars, a Court Line flight to Munich, Royal Jordanian TriStars all over Schiphol, Cathay Pacific and Dragonair action at much-missed Kai Tak, Faucett, APA and Kalitta at Miami and more, ending with over twenty-minutes of non-stop TriStar action right beside the runway and around the ramps at Manchester.

You'll never see more exciting footage of this wonderful aircraft!

084 75 mins £15.95

83 65 mins £15.95

From on the ramp and beside the runway, we bring you the best holiday airliner action in Lanzarote's glorious sunshine, as well as some dramatic night-time shots.

Back in 2000, we still had MD80s [and Iberia's DC9s], plus lots of 757s, 737 classics, A310s and the odd Tristar.

With great coverage of visitors from Northern Europe, as well as local traffic, there's a wide variety of operators to be seen, many of whom have either disappeared or changed their colour schemes entirely.

81 70 mins £15.95

Our first collection of classic airliners has a great mix of action from decades ago, as well as some of the finest preserved aircraft still operating today. There are wonderful sequences showing a Euravia Constellation at Tenerife and Argosies at RAF Benson in 1962.

There's a nice study of SAFE Air Bristol Freighters, including air to air shots. Rovos Air, Nelair and SAA DC3s, as well as a detailed look at Rovos' CV440s.

There's a review of British Eagle's story, using new material and shots of Eagle aircraft from our other DVDs.

Plus, a ramp-side view of Hamburg's Open Day in 2007!

Our second collection of classic airliners has big props and early jets from various locations worldwide. For example, there's Ronaldsway on the Isle of Man in the late fifties, with BEA and Silver City Dakotas, a Dan Ambassador and more, in a wonderful reminder of long-gone airliners.

Others include: BOAC Comets, Britannias and VC10s in East Africa, Vertol 107s in New York, DC4 flight in Alaska, air to air with an NZ DC3 and freighters at Heathrow.

Our attention to detail and painstaking restoration of both cine film and video make this a classic airliner enthusiast's delight.

82 75 mins £15.95

Filed from the spectator terraces on several occasions from 1991 to 1996, this DVD strats with the final days of Dan Air and its takeover in 1992 by British Airways. 707s from three cargo operators and an equal number of BAC 1-11s, plus 727s and 737-200s on short-haul services, provide a reminder of an era before low-cost carriers, with their identical A320s or 737NGs.

A prime example of the way in which the latest digital technology can enhance original VHS material that's now around 25 years old, this DVD [and it's companion Heathrow programme] are a great way to bring back those airport memories.

80 72 mins £15.95

2013

Filmed entirely airside, this is a fascinating review of a major European airport at the turn of the century.

079 75 mins £15.95

2013
